RAW Collection

In the **RAW** series of Tabriz tile concept, there is a ceramic with the inspiration of urban modern design and the process of contemporary architecture. The raw series includes two designs. mix and light, which are offered in several different faces with different sizes to maximize freedom of action in the layout of surfaces for the designers.

This ceramic has a concrete-look that reinterprets the appeal of worn surfaces, in a perfect balance between the past and the present. A ceramic that has a character of both elegance and industrial. RAW reflects the chromatic and structural interpretation of crude cement and flaky gypsum.

The large size makes the RAW series ideal for covering large areas and for exhibitions and reception areas. Also, in the use of interior decoration, due to having colors with high harmony, it will be a complement to any type of design.

This product has a matte appearance and with a thickness of 13 mm, it is suitable for indoor Wall & floors, outdoor areas, facades and bathrooms.

STONE Collection

In the stone series of tabriz tile concept, The charm of ancient stone, fashioned and polished by the passage of time and people, are united with a contemporary and innovative interpretation.

Typical veins, grainy and irregular textures, natural nuances of stone combine with the resistance of porcelain stoneware in a collection of versatile and elegant floor and wall tiles, suitable for the installation in both indoors and outdoors.

The stone series comes in black and silver and it gives the ceramic tiles inspired by them a unique personality and a bold character.

Tabriz tile concept uses the best production technologies, which means that we are able to reproduce with, extraordinary accuracy, the aesthetic detail as well as the materic strength of the natural stone. Therefore, it is possible to merge the charm of the stone with the exceptional resistance-qualities and ease of maintenance of porcelain stoneware.

The large size makes the STONE series ideal for covering large areas and for exhibitions and reception areas. Also, in the use of interior decoration, due to having colors with high harmony, it will be a complement to any type of design.

This product has a matte appearance and with a thickness of 13 mm, it is suitable for indoor Wall & floors, outdoor areas, facades and bathrooms.

STATUARIO vaneto

Inspired by some of the world's most elegant marbles that delivers the intricacies of Italian marble in a functional and highly versatile form. Incredible durability is provided within a non-slip, scratch-resistant surface, making Stone Sense ideal for installation in residential or public spaces, even where heavy traffic is expected.

this innovative material can be laid on both floors and walls to create an expansive, continuous marble surface. It is also the perfect complement to other materials such as stone, wood and concrete.

Smoky black veining contrasts with soft grey hues in this sophisticated Arabescato tile.

this light and glossy rectangular design can be used to add chromatic interest to your space

The striking variations in pattern and colour between individual tiles let you create a truly bespoke effect.

The large size makes the Statuario vaneto ideal for covering large areas and for exhibitions and reception areas. Also, in the use of interior decoration, due to having colors with high harmony, it will be a complement to any type of design.

This product has a matte appearance and with a thickness of 13 mm, it is suitable for indoor Wall & floors, outdoor areas, facades and bathrooms.

CALCATTA Gold

Calacatta Gold is an exclusive white marble with deep gray veining and occasional taupe/gold highlights. Its sophisticated and elegant appearance has graced beautiful homes for centuries.

With calmer and warmer golden beige veins the Calacatta gold porcelain floor tile offers an alternate white marble effect look for those not wanting the traditional grey veined tile. As a design colour beige is often described as a relaxing colour, neutral to it's surrounding, combine this with the beautiful natural marble inspired vein patterns and you get a fusion of modern colour and a classic looking floor. Marble has been the inspiration for interior floor tiles for as long as we have tiled floors, but the use of real marble can be fraught with difficulties.

The large size makes the Calacatta Gold ideal for covering large areas and for exhibitions and reception areas. Also, in the use of interior decoration, due to having colors with high harmony, it will be a complement to any type of design.

This product has a matte appearance and with a thickness of 13 mm, it is suitable for indoor Wall & floors, outdoor areas, facades and bathrooms.
