[WWW.TABRIZTILECONCEPT.COM](http://WWW.TABRIZTILECONCEPT.COM)

**Tabriz Tile Concept** is a product with a unique design, the result of cooperation between the most prestigious Italian design company and the largest producer of porcelain ceramic tiles in Iran, Tabriz Tile.

Company's vision is to replace domestically produced goods with imported products in luxury projects and to show the high production capacity and positive capabilities of Iranian goods in export to other countries.

The designs of this collection have been developed in two series of modern and jewelry, including more than 20 world-class designs that are compatible with today's classic and modern architectures, and in the future, new designs will be added to these collections.

At mosaic collection that combined all of our designs, is highly precision for create more details to suit your preference. Mosaic tile adds gorgeous, intricate designs to any room and

**Statuario vaneto** Inspired by some of the world's most elegant marbles that delivers the intricacies of Italian marble in a functional and highly versatile form. Incredible durability is provided within a non-slip, scratch-resistant surface, making Stone Sense ideal for installation in residential or public spaces, even where heavy traffic is expected. This innovative material can be laid on both floors and walls to create an expansive, continuous marble surface. It is also the perfect complement to other materials such as stone, wood and concrete. Smoky black veining contrasts with soft grey hues in this sophisticated Arabescato tile.

Covelano + Santaba

**Covelano** is a gorgeous and multi-functional ceramic and porcelain wall and floor tile series that offers bright whites and beautiful graphics resembling Italian marble. Marble is a cultural symbol of tradition and refined taste. Soft yet durable, white marble is still the material of choice for stone sculpting. Noble and opulent, marble reacts to its environment and daily use as to record the passage of time.

*The combining two models and different colors (light and dark) create more details for different atmosphere and adds gorgeous, intricate designs to any space.*

### Calcatta Gold + Labradorite

#### Technical information

#### Suitable for Use in

**Labradorite** is a new design at Tabriz tile concept collection, the texture of which is inspired by the precious stone of the same name. Labradorite is a popular decorative stone because of its labradorescence, which creates a dazzling optical phenomenon of a purple to deep blue sheen that shimmers in the light. A polished finish enhances the surface, for a unique and precious material is particularly suited for the decoration of luxury spaces, stores floors and walls. Also, in the use of interior decoration, due to having colors with high harmony.

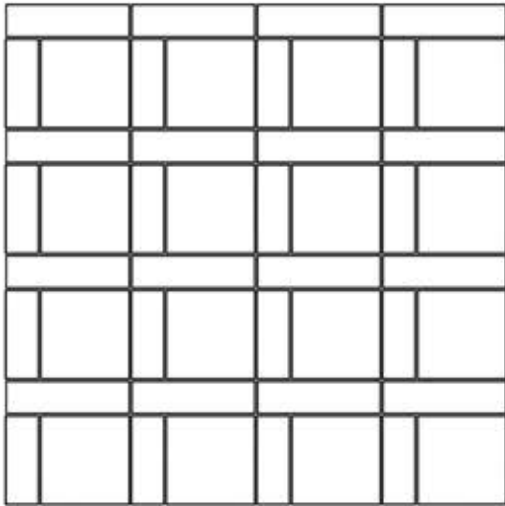

**BORA**
